“WHAT IS KITS” KOREA IT SCHOOL

Provide students with opportunities to build a better career and wide employment opportunities in industry and the field related to their major. Participating universities operate a KITS program to further provide with opportunities for excellent talent utilization.

KITS MAJOR RELATED ORGANIZATION

ABOUT MSIT

The Ministry of Science and Technology Information and Communication (MSIT) is a national administrative organization in the Republic of Korea.

ABOUT NIPA

National Information Technology Industry Promotion Agency (NIPA), based on the advanced secondary plan of public institutions. It is a consignment type quasi-governmental organization established by integrating three IT related organizations.

ABOUT KICC

Korea IT Cooperation Center (KICC) is an overseas office for supporting Korean ICT companies' international business under the Ministry of Science and ICT (MSIT) and National IT Industry Promotion Agency (NIPA). KICC has 5 offices: Silicon Valley (USA), Tokyo (Japan), Beijing (China), Singapore (Singapore), Hanoi (Vietnam). KICC HCMC which 6th office all over the world and 2nd office in Vietnam.

- 1 Support Korean companies participation in Vietnam
- 2 Promote Vietnam and Korean ICT industry sector
- 3 Support development of a market economy in Vietnam

KOREA IT SCHOOL

ROLE

Providing quality education support and finding a good job focusing on the Vietnamese branch offices to Korean companies that need young people in Vietnam.

OBJECTIVE

KITS aims to foster more competitive talent by providing free additional educational opportunities to students selected through academic records, foreign language skills and recommendations from professors among Vietnamese university students who wish to get an IT job.

After three months of training, student who have completed their education will be offered a three month paid internship at a Korean company. After the internship period, student will become a competitive job seeker in the job market using contract or training and internship experience as a full time employee.

ADVANTAGE

APPLICANT'S QUALIFICATION

An unemployed person with bachelor's degree and IT background knowledge (or is expected to acquire).
